# Color System & Theme Tokens

A comprehensive guide to the primary, secondary, neutral, and semantic color tokens that define the visual language of DCSA applications.

### What are Theme Color Tokens?

Theme tokens are semantic color variables that define the visual identity of your system. Unlike system tokens (which are raw color values), theme tokens are contextual and role-based.

- **System tokens** are absolute values (e.g., `blue-60`)
- **Theme tokens** are semantic (e.g., `$theme-color-primary`)
- **Theme tokens map** to system tokens, making global changes simple

### DCSA Theme Customization

Our system applies specific token overrides while maintaining USWDS accessibility standards and design principles.

✓ All overrides maintain WCAG 2.1 AA compliance minimum

## Token Usage Examples

### BUTTONS

Uses: `$theme-color-primary`, `$theme-color-secondary`

### ALERTS

Uses: `$theme-color-info`, `$theme-color-success`, `$theme-color-warning`, `$theme-color-error`

# Typography & Prose

USWDS-Based Design System for DCSA Digital Products

## National Parks

Prose / Heading 1

Great Smoky Mountains National Park straddles the border of North Carolina and Tennessee.

Prose / Intro

## Appalachian trail

Prose / Heading 2

The sprawling landscape encompasses lush forests and an abundance of wildflowers that bloom year-round. Streams, rivers and waterfalls appear along hiking routes that include a segment of the Appalachian Trail.

Prose / Body

## Hiking the Applachian trail

Prose / Heading 3

World renowned for its diversity of plant and animal life, the beauty of its ancient mountains, and the quality of its remnants of Southern Appalachian mountain culture, this is America's most visited national park.

## Planning for the elements

Prose / Heading 4

Right now scientists think that we only know about 17 percent of the plants and animals that live in the park, or about 17,000 species of a probable 100,000 different organisms.

## Rain

Prose / Heading 5

Entrance to Great Smoky Mountains National Park is free. The park is one of the few national parks where no entrance fees are charged.

SOAKING RAIN

Prose / Heading 6

## Font Stacks

### Serif Stack

#### Merriweather

'Merriweather', Georgia, serif  
Regular, Italic  
Bold (700), Bold Italic

### Sans Stack

#### Open Sans

'Open Sans', system-ui, sans-serif  
Regular, Italic  
Medium (500), Semibold (600)  
Bold (700), Bold Italic

## CSS Tokens

```
--font-serif  
--font-sans  
--base-font-size: 16px  
--base-line-height: 1.5
```

## Accessibility Notes

### Contrast Requirements

Minimum 4.5:1 for normal text, 3:1 for large text (18px+ or 14px+ bold)

### Base Font Size

16px minimum to ensure readability

### Line Height

1.5x for body text, 1.2x minimum for headings

### DOs

- Use consistent hierarchy
- Test with screen readers
- Maintain contrast ratios

### DON'Ts

- Skip heading levels
- Use color alone for meaning
- Set text below 16px

# Data Tables

Data tables organize complex information into rows and columns, making it easy to scan, compare, and analyze data.

## Purpose & USWDS

Data tables organize complex information into rows and columns, making it easy to scan, compare, and analyze data.

Our implementation extends the [USWDS Table component](#), adding enterprise-grade features like sorting, pagination, and bulk actions while maintaining strict accessibility compliance (Section 508).

## DCSA Theming

Tables utilize the DCSA color palette to establish hierarchy. Header rows use **Charcoal** or light grays, while interactive elements leverage [Ocean Blue](#).

## Consistency

✓ Standardized cell padding and typography scale.

| Document title  | Title                                                                                                                             | Start date |
|--------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|------------|
| Declaration of Independence                                                                      | Statement adopted by the Continental Congress declaring independence from the British Empire.                                     | 1776       |
| Bill of Rights                                                                                   | The first ten amendments of the U.S. Constitution guaranteeing rights and freedoms.                                               | 1791       |
| Declaration of Sentiments                                                                        | A document written during the Seneca Falls Convention outlining the rights that American women should be entitled to as citizens. | 1848       |
| Emancipation Proclamation                                                                        | An executive order granting freedom to slaves in designated southern states.                                                      | 1863       |

# Forms

## Form Accessibility

Forms are critical interaction points. Ensuring they are compliant with Section 508 and WCAG 2.1 standards guarantees usability for all users, including those using assistive technologies.

### Label Association

Every input must have a programmatically associated `<label>` element. Do not rely solely on placeholder text.

### Required Fields

Required fields must be clearly marked visually (e.g., with an asterisk) and programmatically via `aria-required="true"` or the `required` attribute.

### Error Handling

Errors must be identified in text, associated with the control, and explained. Use `aria-describedby` to link error messages to inputs.

### Focus & Navigation

Usage Guidelines

Use icons to enhance clarity and provide visual cues

Maintain consistent sizing within the same context

Ensure sufficient contrast for accessibility

Don't use icons without clear meaning or context

Avoid mixing different icon styles in the same view

# Alerts & Notifications

Comprehensive usage guidelines and variant specifications for alert banner components following USWDS standards and accessibility requirements.

### \$ Let the sun shine.

On sunny days, open your curtains to allow the sun to naturally warm the rooms of your home without using electricity. Natural sunlight can also lift your mood to help brighten your day. On warm days, close your curtains to help keep your house cool.

### \$ Adjust your schedule.

Instead of running high-energy-use appliances such as dishwashers and clothes dryers during mid-afternoon or early evening hours, operate them early in the morning or late at night. Some utilities charge less at off-peak times, which will help reduce your costs.

### \$ Fill it up.

Wash full loads, whether it's clothes or dishes. Washing multiple small loads means you're using and heating more water, which can increase your expenses. Using cold water for clothes washing can also help lower your costs.

# Layout Patterns

The screenshot displays a web browser window with two tabs: 'New Tab' and 'Results'. The address bar shows a search prompt: 'Search on Google or type in a URL'. The page header includes a green bar with the text 'This System Contains CUI//PRVCY'. Below this, the 'NBIS Portal Individual Engagement Platform (IEP)' is displayed, accompanied by a logo and a user profile for 'John Smith' with a dropdown arrow. The main content area features a welcome message 'Welcome back, John Smith' and a 'Clearance Pending' status. A 'Quick Links' section on the left lists four actions: 'Report foreign travel', 'Report suspicious activity', 'View my Status Tracker', and 'Report new financial activity'. A 'Your action is required' section on the right lists three items: 'You have unread messages', 'New checklist item to complete', and 'Foreign travel needs certification', each with a right-pointing arrow and a 'View all notifications' button. At the bottom, three buttons are visible: 'Clearance Tracker', 'Correspondence', and 'Messaging' with a red dot indicator.
